

## HIGH-END TOPCOATS & SELF-SEALERS: LEADING 1K ACRYLIC TECHNOLOGY

### EPS® 2436

EPS 2436 is a new self-crosslinking acrylic dispersion for use as a binder for high-quality wood coatings.

#### BENEFITS:

- Exceptional transparency and wood wetting (grain accentuation)
- Excellent chemical resistance
- Excellent mechanical properties
- Good block resistance and hardness development
- Good hardness/flexibility ratio
